UPDATE

Plate Orders

Massachusetts
Registry
of
Motor
Vehicles

Multiple Requests

When placing a plate order with the RMV Distribution Center, please allow 5-7 days for processing and mailing time. We have come across instances where the RMV Distribution Center is receiving multiple requests from EVR locations. This may result in sending multiple orders, creating an overstock of plates per location.

Plate Overstock

We are taking inventory of plates that are in demand, such as 0 or 1 ending passenger plates. If you have an overstock of any passenger series plates (including 0 or 1 ending), please contact the EVR section and we will arrange a pick-up for you.

Prorated Plates

If you have other plate numbers in your inventory (9, 8, 7, etc.), you should use these instead of ordering additional 0 or 1 plates. When issuing these plates, the system will automatically prorate the fee.
